### Russian Prince Will Try to Cross Rev. Dr. Rainsford Will Not Ac-The British Channel

. PARIS, Sept. 1.—The morning papers declare that a Russian named Prince Bototoff has decided to attempt to cross the British channel in an aeroplane. He has commissioned the brothers Voisin, aeroplane builders, to construct a large machine in the form known as the triplane, capable of currying two passengers and sufficient water and gasolene for a two-hour trip. This aeroplane is to have a speed of fifty miles an hour. Prince Bototoff is little known in flying machine circles. He has never made a

The interest in aeronauties created by the demonstrations now being conducted by Wilbur Wright at Lemans shows no signs of subsiding. New prizes are being found daily and Rene Quinton, the scientist, who has offered a prize of \$2000 for the first acroplane to remain in the air five minutes with its motors at rest, has taken the initiative in the creation of a popular air league similar to that of the German naval league, the object of which is to raise money and encourage experimentation.

Although the French aeroplanists acknowledge the superiority of the performances of the Wright machine over the existing foreign models in the matter of equilibrium and general control, a majority of the experts still insist that the absence of a tail and the method of launching the Wright machine constitute vital weaknesses. All the French experimenters hold that he heating of the motor is responsible for the inability to accomplish a long flight, and they cannot believe that the Wrights can be able to succeed where they have failed. M. Archdeacon and others still hold the view that the basic principle of the French model is better than the American and that further improvement in this model will enable France again to assume the lead in aeroplane flying.

### Which a Collinsville Was Wounded

Shadi Halaly, who is employed at the Beaver Brook mills in Collinsville and also resides in that section of Dracut, went out visiting last night and as a result of his visit he is now at SI. John's hospital suffering from lactrations on the head supposed to have been caused by a knife wielded by one of his countrymen.

Ilalaly is a powerful fellow and while visiting some friends in Suffol except in Structure as night he got into a fixtic encounter and was having everything his own way when a small sized gang took a hand in the scrimmage and then Shadl was placed in the shade. He was later taken to St. John's hospitat. His condition is not considered serious.

### J. H. Greiner was Struck by Racing Official

BUFFALO, Sept. 1 .- John W. Grenier, 61 years old, died at the hospital today from injuries which, it is alleged, were received at the hands of John R. Madigan, president of the Niagara Racing association.

Madigan was arrested Safurday, when it was learned that Grenier's injuries had become serious, on a charge of assault, and has released on bail soon after. Madigan was in an automobile and passed very close to Greiner who, it is said, started after Madigan with uplifted lane. Madigan, the bail soon after. ### The Man Who Will Start Auto Race Reached Lowell Today

Fred J. Wagner of New York, the as Cotter the mechanician and three ers on Labor day, arrived in Lowell this forenoon and has circumnavigated the course. He says that the course compares favorably with any that he has seen and he allows that the time will be very fast. He does not think that the turns and curves will be as hard to negotiate as some would have one believe. He says it will be one of the greatest automobile races ever

Another man to arrive today was Charlie Basic, the "Flying Dutchman." He piloted a Knox racer into town this forenoon and jogged along to the course. He says he'll go so fast over that course that the people on the other side of the Merrimack river will be puzzled as to know which way they are going. He, too, is pleased with

Robertson, the folly, healthy driver of the Flat car, went over the course this morning, so it was stated this forenoon, in better than eight minutes and he has been quoted as saying that he will win this race or know the reason when

he will win this race or know the reason why.

The city is full of men interested in the race. Some have axes to grind and others are here just to watch the thing develop and it certainly is developing at a very rapid rate.

C. W. Guild, manager of the spark, plug department of the Blake Electric Co., SS Purchase street, Boston, was introduced to a representative of The Sun today and the conversation, of course, drifted immediately to the blg. introduced to a representative of The Sin today and the conversation, of course, drifted immediately to the big race. Mr. Guild pressages a tremendious crowd and he believes that the affair will be a great success from every point of view. The race will be a great thing, not only for Lowell, he said, but for this section of the country.

The 50-horse power Simplex car which is to take part in the race "exploded" into town this morning with Frank L. Lescault at the which and the spread with which he passed through the congested portions of the city made many a persons hair stand

lessness, yet careful hand of Lescault, has sent the same machine over many courses in very rapid time. He knows no fear, but his control over the machine which he operates is marvellous and it is said that when he makes the "hairpin bend" near the Tyngsboro bridge; and tip-over suich near Dave Williams farm, the machine wik be on two wheels.

His inability to win the Briarcliffe race was not due to his daring, but to his eleverness in not killing a number of people. While making the first round he struck a curve which was filled with people who had crowded on the course after the preceding car had passed and rather than strike the crowd Lescault turned his car aside and the machine was overturned. Despite this interruption (Lescault declares that his is not an accident) he with the assistance of the mechanician "righted" the car and proceeded on their way and he guided the Simplex into third position.

### Is Blamed for Great Gem Robbery

DUBLIN, Sept. 1.—The theory of Scotland Yard that a female Ruffles with an entree to the highest social circles is responsible for the numerous jewel robberles this season is strengthened by additional mysterious thefts during the Horse show.

It was learned last night of two great robberles, one from the Shelbourne hotel, where \$3,000 worth of gems were taken, and another from the Hotel Metropole, where jewels valued at \$2,500 were stolen from Lady Annesley.

The pilfered Annesley diamonds were worn at the Women's Health Association convention on Wednesday night.

They were replaced in their case upon the return of the noblewoman and were left on her dressing table, whence they had disappeared on Thursday morning.

Lord and Lady Annesley have so sedulously gnarded the their that the police are convinced that the victims know at least something of the perpetrator's identity.

All the other victims of similar robberies within the month have similarly sought to guard their losses from publicity, apparently with the idea of thwarting a great social scandal.

### PRIZES The Indianapolis Player May Lead Next Season

INDIANAPOLIS, Sept. 1.—Should Fred Lake's appointment as manager prove but temporary, as many local fans believe, and First Baseman Jako Stahi fatt to improve as expected in his batting, it is rumored that Charlie Carrifirst baseman, manager and captain of the Indianapolis team of the American association, and a player who was prominently mentioned a year ago as likely to assume the managerial rolus, may have the affairs of the Boston Red Sox in charge for next season. Carr was formerly an American league player, but took sick two years ago and was finally sold to the Indianapolis team. At the time of his sale there were a good many well-informed fans who predicted that the Eight first sacker would remain with the association for but a brief time. Anty Drudge—"Anything will fade, my dear, if it's hoiled long enough. Boiling weakens the fabric and dissolves the dye. The best way is not to boil your clothes, but to wash them with Fels-Naptha in cool or lukewarm water. Fels Menths, sate the calcust or lukewarm water. Fels Naptha sets the colors instead of fading them, besides making the clothes wear larger. It also saves you time, work, bother and money."

There are cheaper laundry soaps than Fels-Naptha but no other so economical.

Sounds odd, doesn't it? But it's true.

Fels-Naptha is more economical because it saves time, saves work, saves the cost of fuel and makes your clothes wear twice as long.

Fels-Naptha cleans your ciothes in cool or lukewarm water in summer or winter without boiling or hot water to weaken their fabric, and without hard rubbing to wear them into holes.

It takes half as long and requires much less work than the old way.

Try it next washday.

See how white, and clean, and sweet Fels-Naptha makes your clothes

### Springfield Man Accepts Nomination for President

NEW YORK, Sept. 1.-There was NEW YORK. Sept. 1.—There was not room enough in the new clubhouse of the independence league to hold the large crowd that gathered last night for the dual purpose of being present at the notification of Thomas present at the notification of Thomas L. Hisgen, independence party candidate for president, and the housewarming of the club. It had been the intention to show the gathered party leaders the new club quarters, but as every inch of room in the modest little building in Waverly place was occupied this was almost impossible. Still an attempt was made and the time of the conclusion of Mr. Hisgen's speech he was cheered until the walls of the clubhouse seemed to tremble. The clubhouse conly holds about 300 persons and those present were there by invitation. At this stage of the proceedings, Chairman Powell announced that there was a crowd of from \$600 to 10,000 people in the street anxious to hear the candidate speech he was cheered until the walls of the clubhouse seemed to tremble. "I give Doan's Kidney Pilis the credit for my present good health. For some time my kidneys were out of order, and caused my back to become very lame and painful. I could not rest well at night and was bothered a great deal by irregular action of the kidney secretions. Seeing Doan's Kidney Pilis advertised. I procured a hox at Ellingwood & Co.'s drug store. Soon after using them the pains in my back disappeared and the kidneys were restored to a healthy condition."

### Michel Lafleur Eloped Three Weeks Ago

Two weeks ago The Sun mentioned, without names, the case of Michel Lafleur, the well-known Fourth avenue grocer and a popular French-American citizen, whose wife eloped it is claimed, with one J. Oscar Gauther, formerly local agent of the White Sewing Machine company. At this wife would see the error of her way and would return to her children and he was willing to receive her back and forgive her, and with that knowledge in mind The Sun withheld the names of the parties concerned.

But though the erring wife disappearance no word of consure has passed his lips. He forgave her from the start and lived in the hopes of her return to her little ones.

Mr. Lafleur enjoys universal respect that time whereabouts has been learned and the heart-broken husband lies critically ill at his home, the worriment. coupled with a previous illness, having caused his entire collapse.

Mrs. Lafleur left her home, in Avon street, is a comfortable and well furnished one.

Dr. Henri Lafleur of Rigaud, Que. a brother of Mr. Lafleur, arrived in Lowell last night to attend his brother telling her children that she was going telling her children that she was going the content of the canada, from which they

Mrs. Lafleur left her home, in Avon street on the afternoon of August 12, while her husband was at the store, telling her children that she was going down from fore whether the was going down from fore whether the was going the store of the was going the store of the was going the down town for a short time. It is said that previously Gauthier had called at the house with his wagon and had taken her trunk away. She left no word for her husband and he was to-tally unprepared for her action. When however, he became convinced that she had left him he declined to notify she had left him he declined to notify the police, vainly hoping that her motherly instinct would overcome her erring desire and that she would return to her little ones.

On August 12 also J. Oscar Gauthler disappeared from this city, also leav-NEWTON, Sept. 1.—Fortified in his house with his bride of 24 hours, Thomas Callahan, aged 67, a well known West Newton contractor, remained hidden last night from a large crowd which gathered in front of his home. On August 12 also J. Oscar Gauthler disappeared from this city, also leaving behind a trusting wife. After waiting vainty for her husband's return Mrs. Gauthier last Saturday returned to her home in Canada.

The White Sewing Machine Co. has a warrant out for the arrest of Gauthier, who is thought to have left the city with nearly \$300 belonging to the company. He was manager of the local office, and as such received a commission of \$5 on every machine sold. Since his departure, a number of false sale contracts have been discovered by the present managers, where Gauthler had pocketed the money for purely imaginary transactions. Cash payments not turned in by him on the sale of machines, also figure in the complaint lodged against him.

Gauthler, who is a tall and goodlooking man of 35, came to this city seven months ago from Lynn, where he had spent a year after his coming from Montreal with his wifes to the sales.

### ENGLAND AROUSES INTERNATIONAL JEALOUSY.

England is so wedded to the principle of free trade that nothing but an industrial revolution can induce her to adopt the protective system.

A measure that to some extent will serve as a substitute, however, has just taken effect in England and has aroused the indignation of Germany, France, the United States and other countries.

The law in question provides that British patents may be revoked after

The law in question provides that British patents may be revoked after a reasonable interval if it appears that the patented article is not manufactured or the patented process operated in Great Britain.

As a result of the law the foreign holders of patents in England have in many instances decided to build factories in England for the manufacture of the articles as a means of saving their patent rights. It is asserted that the change in the law will cause \$125,000,000 additional to be invested in manufacturing interests in the British Isles, thus giving employment to a great many more people and to some extent relieving the present depression in business under which thousands of people are without employment. This change in policy will result in retaliatory measures being adopted, inasmuch as there has been a good deal of uniformity in the patent laws of the great nations. Some of the other nations may retaliate patent laws of the great nations. Some of the other nations may retaliate not only in a change in their patent laws but also in higher protective duties in order to shut out English manufactures.

The next moves on the international chess board will be watched with considerable interest by all the nations concorned.

### THE VERMONT ELECTION

It would seem that in some quarters too much importance is to be attached to the result of the election in Vermont today. The normal republican majority is 30,000 and if that he increased the republicans will regard it as an indication of strong republican sentiment in New England in favor of a republican victory in the national election in November. On the other hand should that majority he reduced the democrats will regard it as indicating a loss of republican strength and consequent dem-

In point of fact, however, it would not be wise to attach too much importance to the result as Vermont is a hide bound republican state. The independence league has a candidate that may draw slightly from the demperatic vote but beyond this, little change is expected.

The nation is anxiously looking for "straws" that may indicate how the political wind will blow in November, but the Vermont election is not likely to furnish any such criterion.

### THE NAVAL DISPLAY IN THE PACIFIC.

The grand demonstration by our fleet in the Australian ports may inspire those colonies with the idea of gradually building a fleet of their own. They have never been able to secure the presence of any British battleship in the Pacific, and hence to a certain extent they feel that they

Should they establish a colonial fleet, the step would assuredly meet the opposition of England as pointing to a future time when the colonies would decide to use the fleet for the purpose of establishing their independence by casting off the yoke of Britain.

Things move rapidly these days, and the inspiration of such a naval pageant to couonies like Australia and New Zealand must be very great when they consider that they are quite as strong as were the original American colonies when they asserted their independence with such glorious results. The England of that day, however, was not so powerful as the England of today.

### MUNICIPAL CHEMIST NEEDED

The fact that a practical chemist has opened a laboratory in our city will suggest the ultimate need of a city chemist, an official who might soccupy the position of milk inspector or perhaps include the work of that official in his general business. With multifarious laws regulating the sale of foodstuffs, milk and liquors, there is certainly need for a municipal chemist. Such on official, however, is not provided for in the city charter, nor even by ordinance, so that we shall have to wait until the charter be sed before we can have the service of a municipal chemist.

MITCHELIT'S NEW JOB.

Johnstown Democrat: A good many of John Mitcheit's friends and admirers feel that he has made a mistake in accepting a place with the Civic Pederation. It is said that he draws a salary of \$6,000 a year and his dutics cannot be very arduous. Many surject that the Civic Federation—a body dominated by the Big Interests—feached out and got Mitchell in order to keep him out of the political fight at this critical juncture. It is also helicyed that President Roosevelt reached for him and that he very narrowly missed getting him as other labor leaders had previously been taken in and added to the republican working forces. In his present position it is understood that Mr. Mitchell cannot with propriety take part in the campaign and it is hinted that in addition to this he is restrained from helping Mr. Bryan by a profound sense of obligation to President Roosevelt. The latter was at no little pains to callivate the popular head of the United Mine. Workers. He went rather out of his way to show consideration for the labor leader and Mr. Mitchell was not whelly proof against the subtle flattery of presidential favor. But Mr. Roosevell inever quite workers' chief never altogether forgot that he was a democrat and never wholly surreadered to the blandishments of nower.

of Mr. Gladstone's doings and sayings were described almost from minute to infinite. These are published now under the title "Mr. Gladstone at Oxford, 1890.

It is a delightful snapshot of Gladstone. He was letting himself out without reserve in the effort to bring back his old college days. The scraps of conversation cover all sorts of topics. It would be absurd to fasten on him any of the opinions he expressed, for he was not talking for publication and the fellows were trying to draw him out. Most amusing was, his annoyance because Mrs. Gladstone with natural anxlety had followed him to Oxford; he did not want to be watched over while he was having his fling. His vanity, his folble for omniscience, the simplicity of his manners, the amazing vivacity of his mind appear on every page, and F., the chronicler, with the other fellows, had a thoroughly good time while they entertained him. ### REV. FR. BUTLER

Resigns as President of the C. T. A. U.

There was a large attendance at he meeting of the board of government of the Catholic total abstinence union of the archdiocese of Boston Sunday, Hon. John T. Shea of Cambridge, 1st vice president of the union

presiding.

Mr. Shea is acting as president, because of the resignation of Rev. Francis J. Butler, pastor of St. Leo's church. Dorchester, Fr. Butler filled the position of president for many years. The great strides in membership made by the Holy Family league, founded by Fr. Butler, increased his duties to such an extent that it was found impossible for him to fill the presidency of both organizations.

Mr. Shea and the other members of the board of government have outlined a plan of campaign for the coming winter which it is believed will place the membership of the union well up in the front rank of total abstinence unions of other states.

It is planned to have the officers of the union visit every subordinate association and extend the hearty coperation of the Boston union in every laudable object. Assisting in this work will be the deputies of each society. Next Sunday afternoon the deputies will hold a meeting for organizing purposes in the music room of the Boston college. Members of the board of government will be present.

A plan of active work will be formulated for the coming season. Lectures by prominent orators will be one of the chief objects of the union this scarce.

The list of deputies, for the coming term has just been completed by Acting Pres. Shea, and at a glance the list will he seen to contain several new appointments. Among the appointments of interest to Lowell are the following: Pres. John J. Coyne of the Mathews, appointed to the St. John's T. A. Society of North Chelmsford, express John A. McKenna of the M. T. I is chosen again to the Fr. Mathew society of East Cambridge, while expression of the Woburn district, again with the famous St. Charles society, Ex-Pres. Jas. P. Quigley of St. John's society. Wakefield, Edward E. Gaughan of this city as deputy to St. Joseph's society. Wakefield, Edward E. Gaughan of this city as deputy to the Mathews once more, while Miss Louise J. Hurley of Malden will not for St. John's Chelmsford, of the lead and North Chelmsford men on the board, Messes. McKenna and Danogiue enter on their seventherm. Mr. Coyne on his second, while Mr. Oulgley is a law none and an energial McKenra have been members of the board of deputies since the deputy system was inaugmented, with the exception of one year in which Mr. McKenna served as vice-president of the number.

MELBOURNE, Sept. 1.—Adverse weather conditions and a disposition on everybody's part to take things easy after yesterday's strenuous, program combined to make today an off-day in the way of special entertainment for the officers and men of the visiting American battleship fleet. The train which began falling late, last night cutting short the merry-making of the memorable celebration in honor of the visitors' arrival here continued during the night and this morning the city and its guests awoke to the prospect of a dull damp day.

Notwithstanding the unfavorable weather outlook large parties from the battleships came ashore early, the men 'preparing to make the best 'of their shore leave and the officers to attend such functions as had been arranged for the day. These included a

It was at Fort Melgs that General Henry Harrison checked the British advances under Proctor after that general had profited by General Hull's surrender of Detroit. Not many year's ago, the graves of the heroes of Fort Meigs still lay unmarked. The credit for the erection of the monument dedicated today belongs to the Maumee Valley Ploneer and Historical society, which worked for years to collect the necessary funds.

Several thousand veterans and other visitors were present when D. R. Hollenbeck, president of the historical society, called the assemblage to order. ### To Wreck Chicago Express Train Near Poughkeepsie

NEW YORK, Sept. 1.-New York Central railroad detectives investigated today what they suspect was an attempt to wreck the Chicago express in a cut at Hyde Park, near Poughkeepsie, N. Y., last night. A milk train, which entered the cut just before the express was due, ran into a pile of ties which blocked both tracks and the locomotive threw the ties from its pathway.

Around the curve less than a mile down the track the rumbling approach of the Chicago express could be heard running at top speed in an effort to make up lost time.

Trainmen swung the ties to one side, and when the headlight of the express flashed into the cut the way was clear ahead of the train which

That the men who placed the ties on the track were interrupted by the milk train is believed from the fact that five ties were on the up track and only two on the other indicating that preparations were not completed when the milk train approached.

### Says That His Father Failed Recognize Him

John A. Pratt, Jr., an employe of the Haverhill and Amesbury Street Railway, came to Lowell today for the purpose of meeting his father, John A. Pratt, who is employed in the Lowell machine shop, but the latter denied that he knew or ever saw the person who claimed to be his son. The latter called at The Sun office and showing documentary evidence, which consisted of a copy of his father's marriage certificate and record of his own birth, secured at city hall, claimed that he is and always has been recognized by his mother and brother, though he had not seen his father for years.

According to the story told by John A. Pratt, Jr., his father and mother eparated thirty years ago, the father taking the older boy and the mother taking him,

He had heard nothing of his father until today when hearing that his parent was employed at the Lowell machine shop he went to that place for the purpose of meeting the man whom he hadn't seen for a score and a half of years, but the latter did not recognize him, and he felt so put out about the matter that he called at The Sun office to declare that he was the on of the man who had failed to recognize him.

It is just possible that the John A. Pratt of the machine shop may be merely a namesake of the man sought by John A. Pratt, Jr.

The interest in aeronautics created by the demonstrations now being conducted by Wilbur Wright at Lemans shows no signs of subsiding. New prizes are being found daily and Rene Quinton, the scientist, who has offered a prize of \$2000 for the first aeroplane to remain in the air five minutes with its motors at rest, has taken the initiative in the creation of a popular air league similar to that of the German naval league, the object of which is to raise money and encourage experimentation.

Although the French aeroplanists acknowledge the superiority of the performances of the Wright machine over the existing foreign models in the matter of equilibrium and general control, a majority of the experts still insist that the absence of a tail and the method of launching the Wright machine constitute vital weaknesses. All the French experimenters hold that the heating of the motor is responsible for the inability to accomplish a long flight, and they cannot believe that the Wrights can be able to succeed where they have failed. M. Archdeacon and others still hold the view that the basic principle of the French model is better than the American and that further improvement in this model will enable France again to assume the lead in aeroplane flying.

### OUT OF DANGER

CONDITION OF COUNTESS WAS AT FIRST SERIOUS.

LONDON, Sept. 1.—A despatch received here from Vienna says that Countess Szecheni recently was accouched of a still born child. For a time the condition of the countess was serious but she is now out of danger. Countess Szecheni, who was Miss Gladys Vanderbilt, youngest daughter of Mrs. Cornelius Vanderbilt, was married to Count Lassolo Szecheni of Budayest in New York last January.

HELD AT LEXINGTON PARK.

The annual reunion of Company K, Sixth regiment, M. V. M., not the company which is now located in this city, but the company that went to the front, smelled powder, dodged bullets and enjoyed the hardships of war, was held Saturday at Lexington park. While the numbers are decreasing, those who are left are very enthusiastic over keeping up the reunions and once a year they fight the battles over again.

Shortly before noon the comrades began to arrive and the first thing on the program was a business meeting at which the following officers were re-elected:

President, Franklin Jaquith; secre-

were re-clected:
President, Franklin Jaquith; secratary, Amos B. French; ex-committee.
John H. Colburn and Daniel P. Byam.
President Jaquith directed the attention to the following subject: In consideration of the affliction which is being borne by Maj. Charles A. Stott of Lowell, who has been ill for some time, and who has recently undergone the painful experience of amputation of a limb, we, the members of Co. K. Sixth regiment, M. V. M., at this our reunion on Saturday, Aug.

of Co. K. Sixth regiment, M. V. M., at this our reunion on Saturday. Aug. 29, 1908, at Lexington park, Mass., do offer the following resolutions:

Resolved, That our heartfelt sympathy for Major Charles A. Stott be extended to him for the pain and suffering which he has endured by this illness. Resolved, That this company's deep-

Resolved. That this company's deepcst interest is felt for him, and its
earnest desire is for his recovery.
That the affection cherished by his
comrades, and which has never been
lessened, but strengthened as the
years add to the memories of his
genial nature, and the pleasant interchanges of friendship which have
been shared together
Resolved. That we add our congratulations to our sympathy for the
present fidings of the recent successful operation, whereby it is hoped
continued days and better health may
be assured.

DRUDGE'

### Anty Drudge Gives More Reasons.

Little Eunice—"Boo Hoo! I had a pretty pink frock and mama cooked it and the pink all came out."

Mother-"I didn't know the color would fade or I the shouldn't have boiled it along with the other

Anty Drudge—"Anything will fade, my dear, if it's boiled long enough. Boiling weakens the fabric and dissolves the dye., The best way is not to boil your clothes, but to wash them with Fels-Naptha in cool or lukewarm water. Fels Napha sets the colors instead of fading them, besides making the clothes wear langer. It also saves you time, work, bother and money.'

There are cheaper laundry soaps than Fels-Naptha but no other so economical.

Sounds odd, doesn't it?

But it's true.

Fels-Naptha is more economical because it saves time, saves work, saves the cost of fuel and makes your clothes wear twice as long.

Fels-Naptha cleans your clothes in cool or lukewarm water in summer or winter without boiling or hot water to weaken their fabric, and without hard rubbing to wear them into holes.

It takes half as long and requires much less work than the old way.

. Try it next washday.

See how white, and clean, and sweet Fels-Naptha makes your clothes.

Follow carefully the directions on the red and green wrapper.

When Mr. Hisgen's name was first mentioned as the notification ceremony was about to take place, there was renewed cheering. Melvin G. Pallister, thairman of the meeting, then turned the proceedings over to Henry A. Powell chairman of the notification committee. Mr. Powell told Mr. Hisgen and Mr. Harst. This plan was joyously well, chairman of the notification committee. Mr. Powell told Mr. Hisgen that he had been selected as the standard bearer of the new party and then Mr. Hisgen arose to accept the nomination. There was prolonged cheering and it was several minutes before the candidate could begin.

### LAD WAS KILLED GREAT SERENADE

### He Was Knocked Down But - Crowd! Failed to by Strange Man

NEW YORK, Sept. 1.—To be knocked down and killed for a quarter was the fate of George Gross, on East Sixth street, last night. The lad was standing with a group on the sidewalk when a beavily built man walked up him and struck him twice in the

face. 'Why don't you pay me that quarter you ove me?" the stranger asked, according to witnesses. Gross fell to the pavement unconscious and the heavy man disappeared. Gross was carried to a nearby store, where he died within half an hour. The police are looking for the stranger, of whom they have a good description.

### ENGLAND AROUSES INTERNATIONAL JEALOUSY.

lation of any newspaper in Lowell.

England is so wedded to the principle of free trade that nothing but an industrial revolution can induce her to adopt the protective system.

A measure that to some extent will serve as a substitute, however, has just taken effect in England and has aroused the indignation of Germany, France, the United States and other countries.

The law in question provides that British patents may be revoked after a reasonable interval if it appears that the patented article is not manu factured or the patented process operated in Great Britain.

As a result of the law the foreign holders of patents in England have in many instances decided to build factories in England for the manufacture of the articles as a means of saving their patent rights. It is asserted that the change in the law will cause \$125,000,000 additional to be invested in manufacturing interests in the British Isles, thus giving employment to a great many more people and to some extent relieving the present depression in business under which thousands of people are without employment. This change in policy will result in retaliatory measures being adopted, inasmuch as there has been a good deal of uniformity in the patent laws of the great nations. Some of the other nations may retaliate not only in a change in their patent laws but also in higher protective duties in order to shut out English manufactures.

The next moves on the international chess board will be watched with considerable interest by all the nations concerned,

### THE VERMONT ELECTION

It would seem that in some quarters too much importance is to be attached to the result of the election in Vermont today. The normal republican majority is 30,000 and if that be increased the republicans will regard it as an indication of strong republican sentiment in New England in favor of a republican victory in the national election in November. On the other hand should that majority be reduced the democrats will regard it as indicating a loss of republican strength and consequent democratio gain.

In point of fact, however, it would not be wise to attach too much importance to the result as Vermont is a hide bound republican state. The independence league has a candidate that may draw slightly from the demperatic vote but beyond this, little change is expected.

The nation is anxiously looking for "straws" that may indicate how the political wind will blow in November, but the Vermont election is not likely to furnish any such criterion.

### THE NAVAL DISPLAY IN THE PACIFIC.

The grand demonstration by our fleet in the Australian ports may inspire those colonies with the idea of gradually building a fleet of their own. They have never been able to secure the presence of any British battleship in the Pacific, and hence to a certain extent they feel that they are unprotected.

Should they establish a colonial fleet, the step would assuredly meet opposition of England as pointing to a future time when the colonies would decide to use the fleet for the purpose of establishing their independence by casting off the yoke of Britain.

Things move rapidly these days, and the inspiration of such a naval pageant to cononies like Australia and New Zealand must be very great when they consider that they are quite as strong as were the original American colonies when they asserted their independence with such glorious results. The England of that day, however, was not so powerful as the England of today.

### MUNICIPAL CHEMIST NEEDED.

The fact that a practical chemist has opened a laboratory in our city will suggest the ultimate need of a city chemist, an official who might occupy the position of milk inspector or perhaps include the work of that official in his general business. With multifarious laws regulating the sale of foodstuffs, milk and liquors, there is certainly need for a municipal chemist. Such an official, however, is not provided for in the city charter, nor even by ordinance, so that we shall have to wait until the charter be revised before we can have the service of a municipal chemist.

### THE MAN FOR MAYOR.

There are many candidates looming up for the mayoralty, but few who can be relied upon to improve our city government.

We want for mayor a man well versed in municipal matters, a democrat who is fearlyss and incorruptible. The records at city hall show that less extravagance, has prevailed under democratic than under republican mayors.

The affinity business sustained a severe blow when Artist Earle struck his attinity wife for whom he put away a loyal wife. The attinity plea is another name for free love.

The present school vacation is too long. The schools should open a geek earlier. It will take the pupils about two weeks after school opens to et settled down to study.

MITCHELL'S NEW JOB.

Jednstawn Democrat: A good many of John Mitchell's friends and admirrers feel that he has made a mistake in accepting a place with the Civil Federation. It is said that he draws a salary of \$6,000 a year and his duties cannot be very arduous. Many suspect that the Civile Pederation—a body dominated by the Big Interestareached out and got Mitchell in order to keep him out of the political final at this critical Joneture. It is also believed that President Roosevelt reached for bin and that he very narrowly missed getting him as other labor leaders had previously been take en in and added to the republican working forces. In his present position it is understood that Mr. Mitchell cannot winth propriety take part in the campaign and it is hinted that in addition to this he is restrained from helping Mr. Bryan by a profound sense of obligation to President Roosevelt. The latter was at no little phins to cultivate the popular head of the United Mine Workers. He went rather out of his way to show consideration for the labor leader and Mr. Mitchell away. presiding.

Mr. Shea is acting as president, because of the resignation of Rev. Francis J. Butter, pastor of St. Leo's church, Dorchester, Fr. Butler filled the position of president for many years. The great strides in membership made by the Holy Family league, founded by Fr. Butter, increased his duttes to such an extent that it was found impossible for him to fill the presidency of both organizations.

Mr. Shea and the other members of the board of government have outlined a plan of campaign for the confing winter which it is believed will place the membership of the union well up in the front rank of total abstinence unions of other states.

It is planned to have the officers of the union visit every subordinate association and extend the hearty cooperation of the Boston union in every laudable object. NEW YORK, Sept. 1.—The Journal of Commerce today publishes its monthly cotton crop report. As estimated from replies from 1500 correspondents it makes the condition 78.1 points, against \$3.6 for the previous month and 73.9 a year ago. These reports, it may be noted, pre-ceded the date of the recent storms and any damage resulting therefrom is not reflected in the returns. Drought caused shedding, which was

the chief factor in deterioration. Texas and Louisiana, in addition, suffered from boll weevils and boll worms, but in Texas their raveges were not severe. The spread of the weevil in Louislana has been rapid, and the heavy deterioration of 13.8 points can be largely attributed to their presence.

Nearly all the dry sections have been relieved by good rains, and figures show the crop to be entering September in a high average condition. Picking is well under way in nearly all states except Tennessee and Oklahoma, and the season is considered earlier tha last year.

North Carolina shows a declina of 4 points to 85.2, South Carolina of 4.7 to 75.6, Georgia of 7.9 to 76.1, Fforida of 1.8 to 75.6, Alabama of 7.5 to 76.1, and 7.1 to 78.1, Traxas of 6.9 to 76.3 and Arkansas of 0.9 to 85.1. Oklahoma, on the other hand, indicated a gain for the month of 7.1 to 79.2, and Tennessee and Missouri also showed improvement, the former of 0.8 to 87.5 and the latter of 1.8 to 88.3.

Caused by a Fire in Cambridge

BOSTON, Sept. 1.-Thomas Minnaugh of ladder 2 of Cambridge yesterday afternoon made a leap for his life through smoke and blinding flame when he found himself hemmed in on a roof by a fire that was badly damaga root by a free that was baday damag-ing the plant of the Cambridge archi-tectural iron works on Pioneer street, near Broadway, that city.

The fire was one of the most spec-tacular that Cambridge has had for a

lucular that Cambridge has had for a long time, and Minnaugh was one of the many firemen who went to the roofs of several low buildings to fight it. Suddenly he found himself sur-rounded, and his way to the ground by ladder cut off. The crowd shouted to him that he was in dangers, and he him that he was in danger, and he stood still for a moment seconed to get his bearings, and then made one short run and shot through the cloud of smoke. He landed in a heap, as he had no idea what he was going to strike, but fortunately escaped, with nothing worse than a sprained, ankle. William Callaghard of crying 5 was evercome by smoke almost at the same time. The less to buildings and matchinery is estimated at \$10,000. chinery is estimated at \$10,000.

The fire started about 1.20 o'clock. A loud explosion near where naphtha was stored was the first warning that a score of workmen had of the danger, and burdly were they out of the building when the flames were spreading rapidly. Three alarms were sounded. If you want help at home or in your

And the control of th HATHAWAY'S THEATRE

The show season is on, and Hathaway's theatre is on dock with a splendid entertaliment. Last season, under the management of Mr. John I. Shannon, this delightfully appointed physhouse extended reat pleasure to the lovers of vaudeville. Mr. Shannon is at the helm again this season, and is as anxious and only to please as ever. The opening bill is spleudidly bollanced, and two large audience voiced their appreciation of it yesterday. The size of the amilieness and the generality of their application of it yesterday. The size of the amilieness and the generality of their application of it yesterday. The size of the amilieness and the generality of their application of it yesterday. The size of the amilieness and the generality of their application of the generality of the first with the Poets," and it is a very elever thing. A drep from the frivolous in vaudeville, of course, but a calming, soothing, intellectual little offering that makes one feet which is the offering that makes one feet which exists their best efforts. All the tender little places are decicately topiced and the whole is productive of an inspiration that is decided by pleasing. James H. Reeves is an elecutionist of the first water and he singling of the male quartet is exceptionally good. The singers are G. R. Mewilliams, T. G. Heath, W. E. Avery and A. F. Henry.

The Order of the Bath' is a comedy sketch full of tickles. There's an Englishman in it, and perhaps because of final it is deutedly clever, don't yer know. To give it its just deserts one must say that it is a cleverly constructed bace of connect, and there's a deal of good acting goos.

"Paganini's Ghost" is the title o fa musical act in which beautiful melancholy is extracted from the violin by a figure that looks the real spook. This act is booked as a European novetty. "Tis the hour when graveyards yawn, the hour when the phantom shades of those who have gone on before gilde forth into the night and tarry briefly in the haunts of men. As the final stroke of 12 dies into silence the spirit of Paganini, the world's greatest violiaist, emerges from the gloom, and upon his beloved instrument once lets harmony reign supreme for a few itsetting moments, then fades away whence it came. Go and see the musical shost.

Now to the sheath gown and what of it? On the alrest it might attract a deal of attention, but on the vaudeville stage, on. The sheath gown is displayed in a sluging sketch by Seymour & Nestor, billed as Seymour and Nestor "In Characters."

Brown, and Navarro, colored, are not strangers in Lowell, and their offerings are always acceptable. They're a clean, clever and desirable pair. Their work includes, negro, Indian, Italian and Chinese impersonations, accompanied by spod singing good dancing and clever acting.

Herman and Rice opened the bill with some comedy acrobatics. William Court, a true Scotchman, was all to the merry with "She's Ma Dalsy" and "I'm the Saftest Member of the Family," two of the songs which Harry Lauder used here for a few weeks last winter. Unfortunately, Mr. Court was obliged to work in street clothing, because his luggage did not arrive. Court will make good all right.

### ACADEMY OF MUSIC

Another large and well pleased suddence witnessed the performance of Sidney Toter's beautiful southern melodrama, "The Belle of Richmond," at Dixon's Academy of Music last evening, and like the audiences of the opening day were unanimous in the opinion that in the Deshon-litt Stock company Mr. Dixon has secured a winner. Miss Della Deshon, the clever and beautiful leading woman ofthe new company, added to her laureis last evening and well deserved the frequent and hearty applause accorded her. Miss Deshon's interpretation of the sweet girlishness of the southern heroine was done to perfection, while her gowns were exquisite and in keeping with the environment of the play. Mr. Browhe, too, made many friends in the audience by his clean-cut dramatic work, while the statement "They're all goed's spoke for the remaining members of the cast. Miss Chrystal Benson, the diminutive and sprightly ingenue, capityated the audience, while Billy MacKaye, as the old darkey, gave an excellent interpretation of a distinctive character very often overdone. This afternoon a bower matinee and reception, the first of a number of novel features to be introduced, will be held, at which the members of the company will receive their friends on the stage at the conclusion of the performance. Each lady attending the reception will be presented with a pink as a souvenir. The Belle of Richmond" will be repeated all week and seast may be ordered in advance by telophone for any performance, and Treasurer Mayer will keep it open for a short time longer to accommodate the late-comers.

### To Wreck Chicago Express Train Near Poughkeepsie

NEW YORK, Sept. 1 .- New York Central railroad detectives investigated today what they suspect was an attempt to wreck the Chicago express in a cut at Hyde Park, near Poughkeepsie, N. Y., last night. A milk train, which entered the cut just before the express was due, ran into a pile of ties which blocked both tracks and the locomotive threw the ties from its

Around the curve less than a mile down the track the rumbling approach of the Chicago express could be heard running at top speed in an effort to make up lost time.

Trainmen swung the ties to one side, and when the headlight of the express flashed into the cut the way was clear ahead of the train which dashed by unharmed.

That the men who placed the ties on the track were interrupted by the milk train is believed from the fact that five ties were on the up track and only two on the other indicating that preparations were not completed when the milk train approached.

The latter called at The Sun office and showing documentary evidence, which consisted of a copy of his father's marriage certificate and record of his own hirth. secured at city hall, claimed that he is and always has been recognized by his mother and brother, though he had not seen his father for years.

According to the story told by John A. Pratt, Jr., his father and mother separated thirty years ago, the father taking the older boy and the mother taking him.

He had heard nothing of his father until today when hearing that his parent was employed at the Lowell machine shop he went to that place for the purpose of meeting the man whom he hadn't seen for a score and a half of years, but the latter did not recognize him, and he felt so put out about the matter that he called at The Sun office to declare that he was the son of the man who had failed to recognize him.

It is just possible that the John A. Pratt of the machine shop may be merely a namesake of the man sought by John A. Pratt, Jr.

PARIS, Sept. 1.—The morning papers declare that a Russian named Prince Botoloff has decided to attempt to cross the British channel in an aeroplane. He has commissioned the brothers Voisin, aeroplane builders, to construct a large machine in the form known as the triplane, capable of earrying two passengers and sufficient water and gasolene for a two-hour trip. This acroplane is to have a speed of fifty miles an hour. Prince Bototoff is little known in flying machine circles. He has never made

The interest in aeronauties created by the demonstrations now being conducted by Wilbur Wright at Lemans shows no signs of subsiding. New prizes are being found daily and Rene Quinton, the scientist, who has offered a prize of \$2000 for the first acroplane to remain in the air five minutes with its motors at rest, has taken the initiative in the creation of a popular air league similar to that of the German naval league, the object of which is to raise money and encourage experimentation.

Although the French aeroplanists acknowledge the superiority of the performances of the Wright machine over the existing foreign models in the matter of equilibrium and general control, a majority of the experts still insist that the absence of a tail and the method of launching the Wright machine constitute vital weaknesses. All the French experimenters hold that the heating of the motor is responsible for the inability to accomplish a long flight, and they cannot believe that the Wrights can be able to succeed where they have failed. M. Archdoacon and others still hold the view that the basic principle of the French model is better than the American and that further improvement in this model will enable France again to assume the lead in aeroplane flying.

The annual rounton of Company K, Sixth regiment, M. V. M., not the company which is now located in this city, but the company that went to the front, smelled powder, dodged bullets and enjoyed the hardships of war, was held Saturday at Lexington park. While the numbers are decreasing, those who are left are very enthusiastic over keeping up the reunions and once a year they fight the battles over again.

Shortly before moon the comrades began to arrive and the first thing on the program was a business meeting at which the following officers were re-elected:

on the program was a business meeting at which the following officers were re-elected:

President, Franklin Jaquith: secretary, Amos B. French; ex-committee, John H. Colburn and Daniel P. Byarn. President Jaquith directed the attention to the following subject: In consideration of the affliction which is being horne by Maj. Charles A. Stott of Lowell, who has been ill for some time, and who has recently undergone the painful experience of amputation of a limb, we the members of Co. K. Sixth regiment, M. V. M., at this our reunion on Saturday, Aug. 29, 1998, at Lexington park, Mass., do offer the following resolutions:

Resolved, That our heartfelt sympathy for Major Charles A. Stott be extended to him for the path and suffering which he has endured by this illness.

Resolved, That this company's deep-

Anty Drudge—"Anything will fade, my dear, if it's boiled long enough, Boiling weakens the fabric and dissolves the dye. The best way is not to boil your clothes, but to wash them with Fels-Naptha in cool or lukewarm water. Fels-Naptha sets the colors instead of fading them, besides making the clothes wear longer. It also saves you time, work, bother

There are cheaper laundry soaps than fels-Naptha but no other so economical.

Sounds odd, doesn't it?

But it's true.

Fels-Naptha is more economical because it saves time, saves work, saves the cost of fuel and makes your clothes wear twice as long,

Fels-Naptha cleans your clothes in cool or lukewarm water in summer or winter without boiling or hot water to weaken their fabric, and without hard rubbing to wear them into holes.

It takes half as long and sequires much less work than the old way. Try it next washday.

See how white, and clean, and sweet Fels-Naptha makes your clothes. Follow carefully the directions on the red and green wrapper.

### LAD WAS KILLED GREAT SERENADE

### by Strange Man

NEW YORK, Sept. 1.—To be knocked down and killed for a quarter was the fate of George Gross, on East Sixth street, last night. The lad was standing with a group on the sidewalk when a heavily built man walked up to him and struck him twice in the face.

"Why don't you pay me that quarter you owe me?" the stranger asked, according to witnesses. Gross fell to the payement unconscious and the heavy man disappeared. Gross was carried to a wear that the according to without the stranger of th carried to a nearby store, where he died within half an hour. The police are looking for the stranger, of whom they have a good description.

# Three Weeks Ago

Two weeks ago The Sun mentioned, without names, the case of Michel Lafleur, the well-known Fourth avenue grocer and a popular French-American citizen, whose wife eloped it is claimed, with one J. Oscar Gauthier, formerly local agent of the White Sewing Machine company. At that time Mr. Lafleur believed that his wife would see the error of her way and would return to her children and he was willing to receive her back and forgive her, and with that knowledge in mind The Sun withheld the names of the parties concerned.

But though the erring wife disappeared three weeks ago no trace of her whereabouts has been learned and the heart-broken husband lies critically. Lafleur, the well-known Fourth ave-

her whereabouts has been tearned and the heart-broken husband lies critically ill at his home, the worriment coupled with a previous illness, having caused his entire collapse.

Mrs. Lafleur left her home in Avon

down town for a short time. It is said that previously Gauthier had called at the house with his wagon and had taken her trunk away. She left no word for her husband and he was totally unprepared for her action. When, however, he became convinced that she had left him he declined to notify the police, vainly hoping that her motherly instinct would overcome her erring desire and that she would return to her little ones.

On August 12 also J. Oscar Gauthier disappeared from this city, also leaving behind a trusting wife. After waiting vainly for her husband's return Mrs. Gauthier last Saturday return Mrs. Gauthier last Saturday returned to her home in Canada.

The White Sewing Machine Co. has a warrant out for the arrest of Gauthier, who is thought to have left the city with nearly \$300 belonging to the company. He was manager of the local office, and as such received a commission of \$5 on every machine sold. Since his departure, a number of false sale contracts have been discovered by the present managers, where Gauthier had pocketed the money for purely imaginary transactions. Cash payments not turned in by him on the sale of machines, also figure in the complaint lodged against him.

LEXINGTON, Sept. 1.—Dr. J. O. Tilton, a well known physician of this town, returned from his New Hampshire summer home in Pine Cliff yesterday to find that his residence here had been ransacked by burglars.

The break was committed some time between yesterday and the 17th of August, for on that day Dr. Tilton's son, Henry Tilton, left for New Hampshire.

The thieves entered a side window, and having cut the telephone wires, proceeded to go through the house.

A search was made for silverware, but none was found, but in their work the thieves did much damage. Two children's banks were found and broken open and some \$16 obtained, but the injury done the house and furniture will amount to much more than that.

### ENGLAND AROUSES INTERNATIONAL' JEALOUSY.

England is so wedded to the principle of free trade that nothing but an industrial revolution can induce her to adopt the protective system.

A measure that to some extent will serve as a substitute, however, has just taken effect in England and has avoused the indignation of Germany, France, the United States and other countries.

France, the United States and other countries.

The law in question provides that British patents may be revoked after a reasonable interval if it appears that the patented article is not manufactured or the patented process operated in Great Britain.

As a result of the law the foreign holders of patents in England have in many instances decided to build factories in England for the manufacture of the articles as a means of saving their patent rights. It is associed that the change in the law will cause \$125,000,000 additional to be invested in manufacturing interests in the British Isles, thus giving employment to a great many more people and to some extent relieving the present adopted, inasmuch as there has been a good deal of uniformity in the patent laws of the great hallows of the great hallows being adopted, inasmuch as there has been a good deal of uniformity in the patent laws of the great hallows. Some of the other nations may retaliate not only in a change in their patent laws but has in higher protective duties in order to shut out English manufactures.

The next moves on the international choese board will be watched with considerable interest by all the nations concerned.

### THE VERMONT ELECTION

It would seem that in some quarters too much importance is to be attached to the result of the election in Vermont today. The normal republican majority is 30,000 and if that be increased the republicans will regard it as an indication of strong republican sentiment in New England in favor of a republican victory in the national election in November. On the other hand should that majority be reduced the democrats will regard it as indicating a loss of republican strength and consequent dem

In point of fact, however, it would not be wise to attach too much importance to the result as Vermont is a hide bound republican state. The independence league has a candidate that may draw slightly from the democratic vote but beyond this, little change is expected.

The nation is anxiously looking for "straws" that may indicate how the political wind will blow in November, but the Vermont election is not likely to furnish any such criterion.

### THE NAVAL' DISPLAY IN THE PACIFIC.

The grand demonstration by our fleet in the Australian ports may inspire those colonies with the idea of gradually building a fleet of their own. They have never been able to secure the presence of any British battleship in the Pacific, and hence to a certain extent they feel that they

Should they establish a colonial fieet, the step would assuredly meet the opposition of England as pointing to a future time when the e would decide to use the fleet for the purpose of establishing their independence by casting off the yoke of Britain.

Things move rapidly these days, and the inspiration of such a naval pageant to couonies like Australia and New Zealand must be very great when they consider that they are quite as strong as were the original American colonies when they asserted their independence with such glorious results. The England of that day, however, was not so powerful as the England of today.

### MUNICIPAL CHEMIST NEEDED

The fact that a practical chemist has opened a laboratory in our city will suggest the ultimate need of a city chemist, an official who might occupy the position of milk inspector or perhaps include the work of that official in his general business. With multifarious laws regulating the sale of foodstuffs, milk and liquors, there is certainly need for a municipal chemist. Such an official, however, is not provided for in the city charter, nor even by ordinance, so that we shall have to wait until the charter be revised before we can have the service of a manicipal chemist.

### THE MAN FOR MAYOR.

There are many candidates booming up for the mayoralty, but few who can be relied upon to improve our city government.

We want for mayor a man well versed in municipal matters, a demoerat who is fearless and incorruptible. The records at city hall show that Jess extravagance has prevailed under democratic than under republican mayors,

The affinity business sustained a severe blow when Artist Earle struck his affinity wife for whom he put away a loyal wife. The affinity plea is another name for free love.

The present school vacation is too long. The schools should open a week earlier. It will take the pupils about two weeks after school opens to get settled down to study.

MITCHELL'S NEW JOB.

MITCHELL'S NEW JOB.

Johnstown Democrat: A good many of John Mitchell's friends and admirers feel that he has made a mistake in accepting a place with the Civic Federation. It is said that he draws a sabry of \$5.000 a year and his duties cannot be very arduous. Many suspect that the Civic Federation—a body dominated by the Big Interests—reached out and got Mitchell in order to keep him out of the political fight at this critical functure. It is also helieved that President Roosevelt reached for him-and that he very narrowly missed getting him as other labor leaders had previously been taken in and added to the republican working forces. In his present position it is understood that Mr. Mitchell cannot with propriety take part in the campaign and it is hinted that in addition to this he is restrained from belaing Mr. Bryan by a profound sense of obligation to President Roosevelt. The latter was at no little pains to cultivate the popular head of the United Mine Workers. He went rather out of his way to show consideration for the labor leader and Mr. Mitchell was not wholly proof against the subtle flattery of presidential favor. But Mr. Hoosevelt never quite won Mr. Mitchell was my. The mine workers' chief never altogether forgot that he was a hemocrat and never wholly surrendered to the blandishments of power.

With this gain, slight as it is, the frans-Siberian rairoad—a link which has been added since Jules Verne wrote—produces a schedule showing the route by rail and steamer across Europe, Asia, the Pacific and the American continent, that will being the passenger back to New York in 40 days from the date of departure. Much depends upon the certainty of connections, of course; but it will be remembered that Verne's hero found his greatest difficulty in this regard. It is to be borne in mind, however, that Phileas Pogg won his wager, at the moment when he thought it lost, because he had gained the advantage of a calendar day by following the sun around the earth. As the new route is laid out castwardly, the feat of girdling the earth in 40 days will be yet more notable.

Central Figure in Atlantic City Mystery

BALTIMORE, Sept. 1.—The shooting of Charles Boyle Roberts of Baltimore by a masked man in Atlantic City

while Roberts was riding in a wheel chair with Mrs. W. S. G. Williams still buffles the police of both cities. A statement made by Roberts, which is being kept secret, may go far toward clearing the mystery, however. This is the first portrait of Roberts published since the trugedy.

Resigns as President of the C. T. A. U.

There was a large attendance at he meeting of the board of government of the Catholic total abstinence union of the archdiocese of Boston Sunday, Hon. John T. Shea of Cambridge, lat vice president of the union

bridge, lat vice president of the union, presiding.

Mr. Shea is acting as president, because of the resignation of Rev. Francis J. Butler, pastor of St. Leo's church, Dorchester, Fr. Butler filled the position of president for many years. The great strides in membership made by the Holy Family league, founded by Fr. Butler, increased his duties to such an extent that it was found impossible for him to fill the presidency of both organizations.

Mr. Shea and the other members of the board of government have outlined a plan of campaign for the coming whater which it is believed will place the membership of the union well up in the front rank of total abstinence unions of other states.

It is planned to have the officers of the union visit every subordinate association and extend the hearty cooperation of the Boston union in every landable object. Assisting in this work will be the deputies of each society. Next Sunday afternoon the denuties will hold a meeting for organizing purposes in the music room of the Boston college. Members of the board of government will be present.

A plan of active work will be formulated for the coming season. Lectures by prominent orators will be one of the chief objects of the union this season.

The list of deputies for the coming

of prominent orators will be one of the chief objects of the union this season.

The list of deputies for the coming term has just been completed by acting Pres. Shea, and at a glance the list will be seen to contain several new appointees. Among the appointments of interest to Lowell are the following: Pres. John J. Coyne of the Mathews, appointed to the St. John's T. A. society of North Chelmsford, expres. John A. McKenna of the M. T. L. is chosen again to the Fr. Mathew society of North Chelmsford, expres. John V. Donoghue is given the Woburn district, again with the famous St. Charles society. Ex-Pres. Jan. P. Quigley of St. John's society mous St. Charles society. Ex-Pres. Jan. P. Quigley of St. John's society. North Chelmsford has been selected as deputy to St. Joseph's society. Wakefield, Edward E. Gaughan of East Cambridge, is given the post in this city as deputy to the Mathews once more, while Miss Louise J. Hurley of Maiden will act for St. John's Ladies' society of North Chelmsford, of the local and North Chelmsford, men on the board. Messrs, McKenna and Donoghue enter on their seventh term. Mr. Coyne on his second, while Mr. Coyne on his second while Mr. Co

the board of deputies since the depaty system was inaugurated, with the exception of one year in which Mr. Mc-Kenna served as vice-president of the union.

The vacancy created by the resignation of Rev. Fr. Butler will be filled at the October convention and several candidates are mentioned for the place. Among these are Rev. M. J. Doody, P. R. of Cambridge, Maurice Dincon of Model, J. McKenna of Lowell, S. T. Ward of North Chemstord, Otto T. O'Leary of Boston, and Edward F. Stattery of Lowell. In case of the promotion of any member of the present board of government to the presidency a vacancy will occur though it is not at all certain that such will take place. Up to date the friends of Hon. John T. Shea me quietly working in his interest, while astrong sentiment prevaits for John A. McKenna of this city. Mr. McKenna two years use declined a nomination to the presidency, though it is not shown whether he still is of the same opinion in this matter.

Reports Received From Cotton Belt

NEW YORK, Sept. 1.—The Journal of Commerce today publishes its monthly cotton crop report. As estimated from replies from 4500 correspondents it makes the condition 78.1 points, against 83.6 for the previous month and 73.9 a year ago. This marks a loss of 4.5 points for the month, but is 4.2 points better than last year. It is a fairly normal decline, coasparing with 6.7 points. for the 10-year average.

These reports, it may be noted, preceded the date of the recent storms, and any damage resulting therefrom is not reflected in the returns. Drought caused shedding, which was

the chief factor in deterioration, Texas and Louisiana, in addition, suffered from boil weevils and boil worms, but in Texas their ravages were not set vere. The spread of the weevil in Louisiana hus been rapid, and the heavy deterioration of 13.8 points can be largely attributed to their presence.

be largely attributed to their presence.

Nearly all the dry sections have been relieved by good rains, and figures show the crop to be entering September in a high average condition. Picking is well under way in nearly all states except. Tennessee and Oklahoma, and the season is considered earlier tha last year.

North Carolina shows a decline of 4 points to 86.2, South Carolina of 4.7 to 76.5, Georgia of 7.9 to 76.1, Florida of 1.5 to 78.6, Alabama of 7.5 to 78.1, Mississippi of 3.8 to 80. Louisiana of 1.3 to 71, Texas of 6.9 to 76.3 and Arkansas of 0.9 to 85.1. Oklahoma, on the other hand, indicated a gain for the month of 7.1 to 79.2, and Tennessee and Missouri also showed improvement, the iorner of 0.3 to 87.5 and the latter of 1.8 to 88.8.

The fight was the result of a state-most made by Mr. Smith in an address at Parkersburg about a month ago, in which he said the United States senatorship in West Virginia had been bought at public auction for many years. The senator was in the bank when Mr. Smith entered, and asked him what the statement meant.

Mr. Smith replied: "I didn't say United States senators from West Virginia had been bought. I said the senatorship had been purchased at public states beneficial.

DUBLIN, Sept. 1.—The theory of Scotland Yard that a female Raffles with an entree to the highest social circles is responsible for the numerous jewel robberles this season is strengthened by additional mysterious thefts during the Horse show.

It was learned last night of two great robberles, one from the Shelbourne hotel, where \$3,000 worth of gems were taken, and another from the Hotel Metropole; where jewels valued at \$2,500 were stolen from Lady Annesley.

The pilifered Annesley diamonds were worn at the Women's Health Association convention on Wednesday night.

night.

They were replaced in their case upon the return of the neblewoman and were Vitt on her dressing table, whence they had disappeared on Thursday morning.

Lord and Lady Annesley have so esculously guarded the theft that the police are convinced that the victims know at least something of the perpetrator's feetity.

All the other victims of similar robberles within the month have similarly sought to guarit their losses from publicity, apparently with the idea of

As the negro ran he threw away jewelry and when he was caught in front of the Hotel Majestic he had no stolen preperty in his pockets. Along the line of chase the police picked up about \$1,000 worth of jewelry, including a set of pearl prayer beads with a gold cross which was the property of Mrs. Schumway. The beads, three stick pins and a seal ring were all the leat Mrs. Schumway could identify, and the police believe that the heart Mrs. Schumway could identify, and the police believe that the heart of the pearler.

It was a little after noon when a plumber who went to the front door of Mrs. Schumway's residence saw the negro in the parlor. The negro saw him at the same time and ran for the window out of which he jumped. A policeman happened to be in front of the house and he started after the nam. The negro ran toward Columbus avenue and there terrade south. At Seventy-second street he turned east. Bicycle Peliceman Is.accs saw him hunning and went after him. He caught him at Central Park West. In the West Side court he was held for examination.

Fred J. Wagner of New York, the man who is to start the big motor racters on Labor day, arrived in Lowell this forenoon and has circumnavisated the course. He says that the course compares favorably with any that he has seen and he allows that the time will be very fast. He does not think that the turns und curves will be as hard to negotiate as some would have one believe. He says it will be one of the greatest automobile races ever held.

Another man to arrive today was. Charlie Basle, the "Flying Dutchman." He piloted a Knox racer into town this forenoon and jogged along to the course. He says hell go so fast over that course that the people on the other side of the Merrimack river will be puzzled as to know which way they are going. He, too, is pleased with the course. # BIG CIVIC PARADE

### Was a Feature of Today's G. A. R. Encampment

TOLEDO, O., Sept. 1-The two main! attractions of the G. A. R. encamp-ment today were the dedication of the Fort Melgs monument and the civic parade. In the latter 3000 members parade. In the latter 3000 members of local organizations marched while the veterans whose parade will take place tomorrow looked on approvingly. Lespite the fact that thousands were away at Perrysburg to witness the dedication of the Fort Meigs monment, the streets were jammed with sightseers. The weather was warm though not conversive

sightseers. The weather was warm though not oppressive.

The most significent of the day's exercises occurred this afternoon at the village of Perrysburg, 12 unites from Toledo, where a great granite shaft 32 feet in height was dedicated in honor of the dead of Ohio, Kentucky, Pennsylvania and Virginia, who fell in the battle around Fort Meigs during the war of 1812-15.

ls Extinguished After Burning Two Years

CITY OF MEXICO, Sept. 1.—Word reached the firm of S. Pearson & Sons last night that the great oil well fire which has raged at Dosbocas near Tampico for two months was extinguished last Sunday.

Six giant centrifigal pumps poured gravel and mud into the mouth of the boring well for ten days and this cou-pled with persistent dynamite blasting choked the orifice and smothered the flames. The oil has again worked its way to the surface and the well is owing at the rate of 2000 barrels a

Owing to the remoteness of the well the oil is being banked in a great reservoir. It is estimated that \$.000,000 barrels, valued here at \$3,000,000, was consumed by fire.

Hansen is training in Flichburg, and writes that he is down to weight. The men are under a \$500 forfeit to weigh in at 145 at 6 o'clock on the night of the match. Interesting preliminaries have been arranged and the event promses to be one of the most interesting held in Lowell in a long time.

The dedication of this monument was included in the official program of the encampment and hundreds of visitors took the pleasant trolley and boat

tors took the pleasant trolley and boat rides from this city to attend the exercises.

It was at Fort Meigs that General Henry Harrison checked the Eritish advances under Proctor after that general had profited by General Hull's surrender of Detroit. Not many years ago the graves of the heroes of Fort Meigs still lay unmarked. The credit for the erection of the monument dedicated today belongs to the Maumee Valley Pioneer and Historical society, which worked for years to collect the necessary funds.

Several thousand veterans and othervisitors were present when D. R. Hollenbeck, president of the historical society, called the assemblage to order. Following the singing of "America" and the invocation by the Rev. Father J. P. Michaelis, Gov. Harris of Ohio made an introductory address. Other speakers were Senator Foraker, Gov.
